Imóveis Portugal: the brand on one page (D50, prompt 23)

Editorial, calm and precise, in the register of OneMark Properties, with our own marks. Nothing that looks AI-made. The check: `node scripts/design/identity-check.mjs` (also run by `scripts/scorecard.mjs`) fails on warm colours, banned fonts and rounded cards with shadows. Words: content/VOICE.md, checked by `scripts/check-content.mjs`.

PALETTE

Token	Hex	Use
Paper	#FFFFFF	Every page and card. Never cream, ivory or beige.
Ink	#0A0A0A	Headings, text, buttons, rare black bands.
Grey	#5F6368	Body text where ink is too loud, captions, sources.
Hairline	#E3E3E3	Rules and borders, 1 px. No boxes where a rule will do.
Green	#2F5D50	Our one accent, small: the square in the wordmark, markers, focus rings, the selected chip, map scale.
Green on black	#9CC4B6	The same accent on near-black backgrounds.
Map scale	#EEF3F1 #C8D8D1 #8FAEA2 #55806F #2F5D50	Sequential data only.

Never: cream, beige, terracotta, coral, peach, orange, brass, gold, purple-to-blue gradients, neon, glass effects.

TYPE

- **Playfair Display** (OFL) for headings and numbers, set large: 64–90 px on desktop, weight 400.
- **Manrope** (OFL) for text, navigation and buttons, 16–18 px.
- Small labels in Manrope 600, uppercase, letter-spacing 0.16em.
- Never Inter, DM Sans, Poppins, Space Grotesk, Newsreader, Public Sans or Jost.

LOGO (DESIGN/BRAND/, DRAWN BY `PYTHON3 SCRIPTS/DESIGN/LOGO.PY`)

- **Wordmark:** "Imóveis Portugal" in Playfair Display, with the small green square before it. `wordmark.svg` on white, `wordmark-white.svg` on near-black, `wordmark-plain.svg` where the square would be too small (under 16 px cap height).
- **Monogram:** "IP." on near-black, the full stop in green. Social profile pictures (`avatar-1080.png`) and the favicon (`favicon-512.png`).
- Clear space: the height of the "I" on every side. Never stretch, outline, shadow, recolour or set the wordmark in another font. Never place it on a busy part of a photograph.

LAYOUT

Huge headings and a lot of white space; numbered sections (01, 02, 03); an editorial two-column directory for partners (label and name on the left, description and website on the right); large photographs with corners of 2 px at most; hairlines instead of boxes; a slow fade at most. Buttons are near-black rectangles with white text; the outline button is near-black on white.

PHOTOGRAPHY

Real places in Portugal and real interiors, in natural light, at every budget, full-bleed, no credit on the image. Each photograph shows the place it is named after. Never AI-made people or rooms, keys in a hand, handshakes, smiling couples, or a generic beach named after a place it is not.

DO AND DON'T

Do	Don't
White page, one large serif heading, one line of text, one action	Cards with rounded corners and soft shadows, pill badges, sparkles, emoji rows
A number with its source and date under it	A number without a source, or a "three numbers" block
Green as a 12 px square or a 2 px focus ring	Green backgrounds, green headings, green gradients
"Run your numbers" · "See your area on the map"	"Discover", "explore", "unlock", "elevate", "seamless", rhetorical-question headings, exclamation marks, em-dashes
The partner named once, with licence, labelled sponsored	Other companies' logos without a signed agreement
