Name finder (prompt 49), 1 Nov 2026 · private

Brief: an international name, easy to market and to sell at exit; "Imóveis Portugal" stays as the line under it ("Portugal Home Guides" in the US and Israel). Rejected: Miradouro, Morada, Mirante, Farol. Nothing bought, filed or registered; no candidate typed into a registrar's search box.

The funnel

Step	Names	Source
Generated (scripts/brand/generate.py, seeds in content/brand/seeds.txt: real words, root + light ending, two meaningful roots blended)	23,488	—
Pass the spoken-name rules: 4–9 letters, at most 3 syllables, no ç, ã, nh, lh, j, x, w (nor k, y, q, h), no double letters, no soft c/g, no s between vowels, no silent final e, only consonant pairs every language says	12,670	the generator

Checked by the operator before buying (15 minutes, phone and browser): Instagram, TikTok and X handles (login walls; scripted checks were refused), and the trademark registers (TMview fails from this environment, EUIPO eSearch returns nothing, WIPO's Global Brand Database sits behind a CAPTCHA). A DNS lookup as a second source for .com was not available here; each free .com was confirmed by two RDAP requests instead. Premium status is only certain at a registrar's checkout: a name that shows a premium price drops.

The three finalists

Clarmar

IMÓVEIS PORTUGAL

The case. Two syllables, *clar* and *mar*: the clear light on the Atlantic that every Portuguese abroad remembers, said the same way in Lisbon, São Paulo, Paris, New York, Berlin and Tel Aviv, spelt the way it sounds. It is not a word anywhere, so it can be owned; it does not say "property", so it can grow into data, a letter and services without looking like an agency. It carries the family well: *Clarmar 100*, *Índice Clarmar*, *Clarmar Private*; the C makes a clean app icon. For a buyer at exit, a seven-letter coined .com with no history is the asset.

- **Buy:** clarmar.com (11.81 USD a year, Porkbun standard); clarmar.pt (17.38 € a year at Gandi, excl. VAT).
- **Handles:** Instagram @clarmar, TikTok @clarmar, X @clarmar (operator checks; fallback @clarmar.pt or @clarmarhq); LinkedIn /company/clarmar (free); YouTube @clarmar is taken: use @clarmarhq.

Nortamar

IMÓVEIS PORTUGAL

The case. *Norte* and *mar*: a bearing, north to the sea, Portugal's own direction home. Three open syllables that every speaker reads the same, nor-ta-MAR. It reads as a measure and an arrival, which is the index and the letter. *Nortamar 100*, *Índice Nortamar*, *Nortamar Private*.

- **Buy:** nortamar.com (11.81 USD); nortamar.pt (17.38 €).
- **Handles:** Instagram, TikTok, X @nortamar (operator checks); YouTube @nortamar and LinkedIn /company/nortamar free.

Clarluma

IMÓVEIS PORTUGAL

The case. *Claro* and *lume*: clear light, the brightest of the three and the softest to say, klar-LOO-ma. Strong for the letter and the guides, a little less for an index than Clarmar. *Clarluma 100*, *Índice Clarluma*, *Clarluma Private*.

- **Buy:** clarluma.com (11.81 USD); clarluma.pt (17.38 €).
- **Handles:** Instagram, TikTok, X @clarluma (operator checks); YouTube @clarluma and LinkedIn /company/clarluma free.

Trademark, for the chosen name: after a clean TMview search (identical and similar signs, classes 35, 36, 41, 42; offices EUIPO, Portugal, Brazil, the US, Israel), file a word mark at the EUIPO (850 € for the first class, 50 € for the second, 150 € for each further class: 1,200 € for the four) and at INPI Portugal (per its fee table), the logo later as a figurative mark; Brazil (INPI) and the US (USPTO) next. Classes: 35 advertising and online advertising space; 36 real-estate and financial information; 41 publication of guides and online information (not news); 42 data platforms and software as a service.

Before buying (the operator, minutes): the three handles on the phone; TMview and WIPO for the four classes; the registrar checkout shows the standard price, not premium. Buy the .com and .pt of the chosen name the same hour.
