Funding map (prompt 50), 1 Nov 2026

For a Portuguese Lda incorporated in November 2026 in the Porto area (Norte), two managers, no employees, a data and services platform (D71), launch 1 Dec 2026. Every fact was checked on the programme's own site or an official journal on **1 Nov 2026**; URLs are in ops/funding/research_sources_1-5.md and research_sources_6-10.md, the beneficiary search in ops/funding/comparables.md. Effort hours are our estimates. "Not stated" means the source gives no figure. Nothing was applied for; no application was drafted (§4 not run, by instruction).

In one paragraph. There is no large grant for us before Q2 2027, and possibly none in 2027. The Portugal 2030 lines that fit a platform (SICE Qualificação and Internacionalização) need at least 200,000 € of eligible spend, last closed in January 2025 and March 2026, and are not in the published call plan to August 2027 as individual calls; the PRR is in its closure phase. What is real in the next six months is small and fast: the EU SME Fund trademark voucher (deadline 4 Dec), an IEFP-funded intern (window open to 7 Dec), the IEFP hiring grants once we hire (2027 window), Erasmus for Young Entrepreneurs for one manager, and a BPF-guaranteed loan if we ever need debt. Realistic total to June 2027: **0 € low, about 18,500 € high**, plus up to 5,700 € paid to a manager personally.

1. Every source, ranked

Ranked by euros per hour of effort, then time to cash. € per hour = high amount ÷ effort.

#	Source	What it is	Amount and rate	Eligible for us	Next call	Effort	To cash	Publicity
1	**SME Fund 2026** (EUIPO, via INPI)	Vouchers for IP costs	Voucher 2: 75% of trademark fees at INPI or EUIPO, max 700 €; voucher 1, IP Scan: 90%, max 1,260 €	**Yes, once the Lda exists** (EU SME)	**2 Feb–4 Dec 2026**	2 h	voucher valid 1 month (+1); refund after we pay the fee; time not stated	not stated
2	**Estágios +Talento** (IEFP, PT2030)	6-month internship, graduate ≤35	IEFP pays 65% of a 1,181.69–1,396.54 €/month bursary (80% if we hire after), plus meals 6.15 €/day and insurance: **4,609–6,703 €** plus about 880 €	**Yes, once registered** with tax and Social Security clear	**open to 7 Dec 2026, 18:00**, or until the budget runs out	4–8 h	60% within 45 working days of approval; 40% later; we pay the intern first	PT2030 co-financing notice
3	**Emprego +Talento / +Emprego** (IEFP, PT2030)	Grant per open-ended hire	9,668.34 € (graduate ≤35, salary ≥1,499.15 €) or 6,445.56 €; +35% per uplift, up to 4	**After the first hire**; not for partners or their spouses	2026 window closed early (21 and 26 Oct); 2027 window not stated	6–10 h	40% within 20 working days of the contracts starting, 40% month 13, 20% month 24	PT2030 co-financing notice
4	**Erasmus for Young Entrepreneurs** (EU)	1–6 months with a host entrepreneur abroad	900 €/month (LU, BE, ES, DE), 950 € (FR): **900–5,700 €**, paid to the person	**Yes, one manager**, once	continuous	10–15 h	instalments; timing not stated	not stated
5	**28DIGITAL Venture Incubation** (ex EIT Digital)	Incubation grant	5,000 € grant + optional 15,000 € investment	**After the 2027 call**; deep-tech bias, low odds	Q2 2026 closed; 2027 not stated	15–25 h	not stated	EIT rules, not read
6	**SME certificate** (IAPMEI)	Prerequisite	free	**Yes**, on estimates	continuous, decision immediate	1–2 h	—	none
7	**Startup status** (Lei 21/2023; Startup Portugal)	Status, not cash: IFICI 20% IRS for hires from abroad, stock options	—	**After** ANI recognition, a VC or angel round, BPF investment, or Startup Portugal's	continuous	4–8 h	—	none

#	Source	What it is	Amount and rate	Eligible for us	Next call	Effort	To cash	Publicity
		taxed on 50% when sold, programme bonuses		Declaração Prévia; the VC route excludes real-estate intermediation, so our object must read as data and software				
8	**BPF Impulsar Portugal, Novos Negócios**	Bank loan with an 80% mutual guarantee, for start-ups	up to 1,000,000 € per company; a loan, not a grant	**Yes, after incorporation** and a bank decision	open to 31 Dec 2028	8–15 h	bank's timing, not stated	not stated
9	**BPF InvestEU Digitalização guarantee**	Guaranteed loan, 12–180 months, 75% guarantee	up to 10,000,000 €	**Possibly**: depends on our CAE counting as digitalisation (not defined)	open	8–15 h	not stated	not stated (InvestEU)
10	**SICE Internacionalização, joint projects** (COMPETE 2030)	Business associations run joint promotion; SMEs take part	not stated per participant	**After** joining an association's project; whether a company under a year old can join is not stated	planned 4 Jan–30 Dec 2027	10–20 h	60 working days to decision	PT2030 bar, sheet, A3 poster
11	**Portugal Ventures**	Public VC: pre-seed to Series A	tickets up to 6 M€; stake not stated	**After** incubation at an Ignition partner (UPTEC etc.) and a fundable tech case; our ad revenue may fit poorly	calls not verified (pages timed out)	20–40 h	not stated	not stated
12	**Norte incubators** (UPTEC, ScaleUp Porto, Startup Braga)	Incubation; door to Ignition	costs money; fees not stated	yes	continuous / Braga to 31 Mar	3–6 h	—	—
13	**IRC SME rate**	15% on the first 50,000 € of profit (general 19% in 2026, 18% 2027, 17% 2028)	—	yes, automatic once profitable	—	0	in the tax return	none
14	**SIFIDE II** (ANI)	R&D tax credit, 32.5% (+15% new SME)	value about 0: only 2026 spend, no IRC due in year 1	only for 6 weeks of 2026; index method possibly R&D, data pipeline no; 2027+ not stated	by 31 May 2027	20–40 h	only as lower IRC	none
15	**RFAI**	IRC deduction on investment, 30% or 10%	about 0 (light capex)	after the first hire and profit	in the tax return	3–5 h	lower IRC	none
16	**PT2030 Garantias** (BPF)	Early payment of an approved PT2030 grant	up to 25% of the grant	after a PT2030 approval	—	—	—	—
17	**Vales ESG** (COMPETE)	Simplified ESG project	not stated	not stated (no call text)	planned 1 Oct–30 Nov 2026; not open on 1 Nov	—	—	PT2030

No, with the reason (each verified the same day):

- **SICE Qualificação** (trademarks, digital, certification, 50%) and **SICE Internacionalização individual** (50%, max 150,000 €): minimum 200,000 € eligible spend; last calls closed 30 Jan 2025 and 31 Mar 2026; no individual call in the Sep 2026–Aug 2027 plan.
- **SICE Inovação Produtiva** (Norte 2030, max 30% in Porto): minimum 300,000 €. Closes 6 Nov 2026 per the PDF (the portal says 30 Oct), and we will not be incorporated and registered in time.
- **SI Empreendedorismo Norte** (75%, up to 500,000 €): closed 31 Mar 2025; it needs an R&D spin-off and paid-up capital of 25,000 €; no Norte successor.
- **SIID I&D** (Norte excluded), **STEP** (min. 3 M€), **IP protection** (patents only) and **Demonstradores**: no.

- **Norte "Vales"**: none exist in 2021–2027.
- **PRR**: Startup vouchers (30,000 €) and incubator vouchers are closed; Recuperar Portugal entered its closure phase on 1 Oct 2026.
- **StartUP Voucher**: for idea-stage founders aged ≤29 without income.
- **BPF Deal-by-Deal**: co-investor applications closed 23 Feb 2026, successor not stated.
- **IFIC Deeptech**: not deep tech.
- **InovIA** (FCT, supercomputer hours to 31 Dec 2026): non-profit, pre-commercial use only.
- **EIC Accelerator**: we are not breakthrough tech; 80–150 h for very low odds.
- **Horizon Europe, Digital Europe**: no topic on property data.
- **EIT Urban Mobility**: not mobility.
- **Interreg Atlantic Area**: call 4 closed 30 Oct 2026.
- **SUDOE**: 2026 calls are for wildfire and ageing only.
- **Creative Europe journalism**: 7 M€ calls to 4 Feb 2027; listed only for the record, because they would make us a press title (D71).
- **PNAID / GAID**: a coordination framework, with no grant line of its own.
- **Regressar**: ended 31 Mar 2026; its credit line has been closed since 2020.
- **"Voltar"**: announced in the press only, with no official text, and aimed at people, not companies.
- **Porto Digital, Porto Innovation Hub, Gondomar, AMP**: no grant line. The PNAID bodies and the municipal emigrant offices are distribution partners, not funders.

2. Who has been funded for something like us

25 records, each from an official list searched on 1 Nov 2026: Kohesio (API, Portugal), the Portugal 2020 final list (73,088 operations), the Portugal 2030 list to 30 Sep 2026 (24,544), the PRR project lists on dados.gov.pt (30 Oct 2026), and AICEP for Portugal Ventures (its portfolio pages timed out). Startup Portugal publishes no separate voucher list; its vouchers are the PRR C16-i02 rows. Record IDs in ops/funding/comparables.md.

#	Company (region)	Line and call	Year	Eligible → grant €	Project, in the record's words
1	Lithium Investments, "QLIQ" (Centro)	Centro 2020 · SI2E	2019	64,060 → 35,700	"plataforma imobiliária digital" for residential tourism
2	Alfredo Real Estate Analytics (Lisboa)	PRR · Vouchers para Startups (10/C16-i02/2022)	2023	not stated → 30,000	AI and big-data appraisals "to promote transparency"
3	Alfredo Real Estate Analytics (Lisboa)	PRR · Internacionalização via E-commerce (14/C16-i02/2023)	2024	not stated → 42,500	metasearch SaaS taken to foreign markets
4	H2Experience, "House Hunting Experience" (Matosinhos)	PRR · Vouchers para Startups	2023	not stated → 30,000	hub for buyers, sellers, partners; lifestyle matching
5	Economat2Biz, "Portugal Concierge" (Oeiras)	PRR · Vouchers para Startups	2023	not stated → 30,000	platform for foreigners "que desejam investir ou residir em Portugal"
6	Odynx (Oeiras)	PRR · Vouchers, 3rd call (21/C16-i02/2025)	2025	not stated → 30,000	app that "recolhe e analisa dados de múltiplas fontes imobiliárias"
7	Domínio Urbano, "Homizy" (Leiria)	PRR · Vouchers, 3rd call	2025	not stated → 30,000	transaction platform: checks, valuations, legal support
8	Upgraide AI, "Atlas" (Porto)	PRR · Vouchers, 3rd call	2025	not stated → 30,000	real-estate SaaS "face aos seus concorrentes internacionais"
9	Apogeu Forasteiro, "CasaGPT" (Ovar)	PRR · Vouchers, 3rd call	2025	not stated → 30,000	online property platform with AI
10	Certifeito, peritosqualificados.pt (Porto)	PRR · Vouchers, 2nd call (16/C16-i02/2023)	2024	not stated → 30,000	booking energy-certificate experts for sales
11	Zomeit (Porto)	PRR · E-commerce internationalisation	2024	not stated → 42,500	sales platform features and global online campaigns
12	Hubzome (Braga)	PRR · IA nas empresas (03/C05-i14.01/2025)	2025	407,500 → 300,000	AI agents that qualify leads for consultants
13	Omrei (Braga)	PRR · IA nas empresas	2026	not stated → 192,375	AI buyer–seller matching, investor portal

#	Company (region)	Line and call	Year	Eligible → grant €	Project, in the record's words
14	Pacific Front (Elvas)	PRR · IA nas empresas (07/C05-i14.01/2026)	2026	not stated → 195,000	AI price, risk and demand models for investors
15	Our Watch Leads, "OWLplaces AI"	COMPETE 2030 · I&D PME (MPr-2024-12)	2026	303,016 → 228,057	sustainability scoring of property worldwide, geospatial data
16	Imagem Urbana (Norte)	Norte 2030 · I&D PME (MPr-2025-4)	2026	483,923 → 308,306	on-site energy-certificate software
17	RT GEO (Algarve)	Algarve 2030 · SME development (ALGARVE-2023-14)	2024	158,852 → 63,541	"3 aplicações webSIG", one for real estate
18	Mota Imo (Lisboa)	Lisboa 2020 · Qualificação, vale*	2015	20,000 → 15,000	"Portal multilingue e nova marca"
19	CPURB (Cávado, Norte)	Norte 2020 · I&DT, vale*	2015	20,000 → 15,000	property valuation app
20	Frontfiles (Leiria)	Centro 2020 · FEDER, services to SMEs	2020	504,205 → 226,892	content marketplace into "Brasil, Argentina, Canadá e Israel"
21	Biscayne Relocations (Sintra)	Lisboa 2030 · SI Internacionalização (MPr-2024-7); PRR e-commerce	2023–26	443,660 → 58,580; + 42,500	relocation for expatriates: US, Canada, Brazil, France, Luxembourg + 14
22	Big Welcome (Almada)	Lisboa 2020 · +CO3SO Emprego (FSE)	2021	72,944 → 36,472	property business for "investidores estrangeiros"
23	APR, residential tourism association	COMPETE 2020 · collective internationalisation	2016	530,785 → 427,101	"Living in Portugal 2016+": marketing abroad
24	Fundação AEP, Rede Global da Diáspora	COMPETE 2020 ×2, COMPETE 2030	2018–25	901,284 → 766,092 (2025)	platform "que pretende aproximar as PME aos portugueses espalhados pelo mundo"
25	Unlockit (Lisboa)	Portugal Ventures · Call INNOV-ID, then a 1.4 M€ pre-seed round	2023–24	ticket not stated	Web3 property transaction management

* Line inferred from the call code and the 20,000 → 15,000 pattern. Also of note: NERBE/AEBAL "Saveurs du Portugal" (COMPETE 2030, 445,978 → 379,081) markets to the diaspora in **France, Luxembourg and Switzerland**, our markets.

Patterns.

1. **The line that funded platforms like ours most is gone.** PRR C16-i02 (Vouchers para Startups, a flat 30,000 €; e-commerce internationalisation, 12,500–42,500 €) funded at least nine property and proptech start-ups in 2023–25, four of them in 2025 (rows 2–11). It is closed and the PRR is in its closure phase; no successor is named.
2. **Bigger money needs co-financing and R&D framing.** PRR "IA nas empresas" paid 16,000–300,000 € (about 74% for Hubzome); PT2030 R&D calls paid 64–75% on 300–480k €; SI Internacionalização pays about 40%, 50% in Norte, capped at 150,000 €. The index method is the only part of our work that could be framed as R&D.
3. **Diaspora and foreign-buyer marketing is funded through associations, at 80–85%** (APR, AEP's diaspora network three times, Saveurs du Portugal in FR/LU/CH). Our route there is the 2027 SICE joint-projects call as a participant with AEP or a chamber, not our own application.
4. **Small early money (2015 "vales", 75% on 20,000 €) has no 2021–27 successor in Norte.**
5. **The wording that wins:** "plataforma digital" or "SaaS" with a named technology (AI, big data, matching, geospatial data), "transparência do mercado imobiliário", named export markets (Frontfiles: Brazil, Argentina, Canada, Israel), "multilingue", and a green angle for vouchers (fewer trips, renovation, energy). Reviewers reward a live product with first users, named markets and measurable digital transition.
6. **The incumbents took no public money.** Casafari, Idealista, Imovirtual/OLX, Confidencial Imobiliário, Uniplaces and Homeit appear in none of the lists under those names (name matching only): the sector's winners were privately funded; public money goes to small, young firms.

3. The plan

When	Do	Expected cash (low–high)
This month (to 30 Nov)	Incorporate the Lda: object worded as data, software and advertising, not real-estate activity (D14, D71, Lei 21/2023 art. 2(2)). Then: SME certificate, Balcão dos Fundos registration, Social Security and IEFP employer registration, tax and SS certificates; Declaração Prévia request to Startup Portugal; pick the intern profile and post the offer on IEFP.	0 € (nothing pays this month)

When	Do	Expected cash (low–high)
By launch (1–7 Dec)	Apply to the SME Fund by **4 Dec** (vouchers 1 and 2), then file the chosen word mark at the EUIPO within the voucher's month. Apply for Estágios +Talento by **7 Dec, 18:00**.	0 € cash; 0–700 € trademark refund and 0–7,580 € internship approved
Q1 2027	Intern starts (January); IEFP pays 60% within 45 working days of approval. Trademark refund. One manager applies to Erasmus for Young Entrepreneurs (host in France or Luxembourg). Watch the IEFP 2027 hiring window and the SICE joint-project call (from 4 Jan) through the AEP or AICEP-linked associations.	**0–5,250 €**
Q2 2027	Internship 40% balance. First hire (if revenue allows) under Emprego +Talento: 40% after the contract starts. Erasmus stay (to the manager). 28DIGITAL Venture Incubation if a 2027 call opens.	**0–13,250 €** company, plus **0–5,700 €** to a manager

Total to 30 Jun 2027: **0–18,500 €** to the company. High case: the SME Fund trademark refund (700 €), a level-8 intern with the 80% rate plus meals and insurance (about 7,580 €), one graduate hire under 35 with one uplift (13,052 €, of which 40% by June), and 28DIGITAL's 5,000 €. Low case: every application refused or budget exhausted. That is lower than what one Gold sponsor pays (8–12k €/yr); sponsors stay the plan, funding is a top-up. A loan (BPF Impulsar, up to 1 M€, 80% guaranteed) is available at any time if we choose debt; it is not counted.

Prerequisites, in order. Durations from the sources where stated; "est." where not.

1. **Lda** (Empresa na Hora or Empresa Online), with NIF and Social Security number: est. 1–3 working days; certified accountant appointed and activity started within the first 15 days (est.).
2. **SME certificate** (IAPMEI, free): decision immediate on submission (stated); estimates confirmed after the first IES, or it lapses.
3. **Balcão dos Fundos registration** (company credentials): est. 1 day; not verified this session.
4. **Tax and Social Security clearance** (certidões de situação regularizada): est. same day online once registered; checked before every payment.
5. **Accountant's declarations** (organised accounting; SME and de minimis declarations in each application): est. 1–5 days.
6. **Startup Portugal recognition** (Declaração Prévia route): decision time not stated; the document list includes an IES, which we will not have until after the 2026 year-end. It may not be possible before mid-2027.

4. Risks, line by line

SME Fund. It reimburses part of a fee we pay first; vouchers 2–4 are valid one month (plus one), so the filing must be ready when the voucher arrives, and the brand must be chosen by then. Budget is limited and may run out before 4 Dec. Whether it counts as state aid is not stated on the INPI page.

Estágios +Talento. We pay the intern in full each month and claim IEFP's share; 40% comes late. The window can close early "until the budget is reached", as the hiring measures did in October. An intern is not staff: we must provide a tutor and a real training plan, and IEFP can audit and recover the support if the internship ends early or the plan is not followed. 80% only if we then hire on an open-ended contract.

Emprego +Talento / +Emprego. The job must be net new and kept for 24 months, with no dismissals 3 months before; if the person leaves and is not replaced, or headcount falls, IEFP recovers the money. 20% arrives only after 24 months. It cannot be combined with Social Security exemptions for the same job. The 2026 money ran out in October; 2027 may run out faster. Partners and their spouses are excluded.

Erasmus for Young Entrepreneurs. The money goes to the manager, not the company, and covers living costs abroad for up to six months away from the business at launch time. Matching a host can take months.

BPF loans. Debt with a personal and company repayment duty; the bank decides, and banks want accounts we do not have yet. The guarantee's grant equivalent counts as state aid.

Portugal 2030 (any line, if it reopens). Grants reimburse costs we pay first; only up to 10% comes as an advance. We must pay at least half of the project (70% for Inovação Produtiva) and hold 25% equity by the first payment. Costs incurred before the application are not eligible. Logos, the operation sheet and an A3 poster are mandatory whatever the size; results are audited for years after, with clawback if indicators (jobs, turnover, exports) are missed. Minimum spend of 200,000–300,000 € is out of reach before revenue.

Startup status and tax lines. No cash. SIFIDE and RFAI only reduce IRC when there is profit; SIFIDE is in force for 2026 only. The startup route by venture-capital round is closed to real-estate intermediaries, so any wording of our object as property brokerage would cost the status.

Equity (Portugal Ventures, 28DIGITAL investment). Dilution, investor rights over an exit within 12 months, and long processes for small tickets.

De minimis (Regulation (EU) 2023/2831). At most **300,000 € over any 3 years** per single undertaking, counted from the date the right to the aid is granted, whatever its form (art. 3). A single undertaking includes every enterprise linked by majority voting rights, board control, dominant influence or a shareholder agreement (art. 2(2)): if a partner controls another company that is linked to ours, its de minimis aid counts against the same ceiling. The register applies from 2026. Everything in this plan stays far below 300,000 €, but each application asks for a sworn declaration of the past three years' aid, which the accountant must prepare from each partner's other companies.

5. What could not be verified

- **eur-lex.europa.eu** blocked access (WAF), so Regulation 2021/1060 Annex IX (publicity sizes and thresholds) was not read at the source; the obligations come from the PT2030 calls that cite it. De minimis was read on the Publications Office copy.
- The following could not be reached: **recuperarportugal.gov.pt** and **norte2030.pt** (TLS); **diariodarepublica.pt** (script-only page); **portugalventures.pt** subpages (timed out); **startupguimaraes.pt**; **portaldascomunidades**; **investporto.pt** (error 500); **portal.amp.pt** (empty page); **euipo.europa.eu** (403, so the SME Fund was read on INPI's page).
- The **Inovação Produtiva** and **SIID** closing dates differ between the call PDFs and the portal.
- Not stated or not read: the **Vales ESG** conditions; whether a new company can join the **2027 SICE joint projects**; startup status without an IES; BPF's definition of a "new" company and its CAE list; Portugal Ventures' current calls and terms; the RFAI rate for Norte; any SIFIDE extension past 2026.
- **"Voltar"**: press reports only.
- Whether a **PRR "IA nas empresas"** call is still open was not checked (the PRR is closing). The 2015 "vale" lines in the comparables are inferred from call codes; the incumbents' absence rests on name matching; Kohesio's 2021–27 data is partial.
- Not stated by the programmes: the IEFP approval times and the 2027 IEFP windows.
